BEDROCK METALS LLC.

Thank you for your interest in BedRock Metals and our premium line of aluminum profiles and extrusions. This manual has been designed to assist you in pricing and ordering the best products to fit your customer's needs. Please take some time to review the following pages and feel free to contact either our Sales Support team or your Regional Sales Manager with any questions you might have.

BedRock Metals has been producing quality, aluminum products since 1984 at our state-of-the-art facility in Sharjah, United Arab Emirates. In an industry known for look-alike products, BedRock has taken a decidedly different approach in our designs as well as the materials we use. Simply put, you won't find a better aluminum fence on the market. Because of our focus on customer service, we are always searching for new products to add to our offering. Ask your representative for details about any of our innovative products.

From structural profiles to architectural systems and custom components, our aluminum solutions are engineered for durability, performance, and aesthetic appeal. While others may offer standard or generic options, we focus on delivering precision, innovation, and customization to meet the evolving needs of modern construction and design.

We look forward to adding your name to our growing list of satisfied customers.

Regards,

BedRock Metals Management

BedRock Metals RAL Colors

BedRock Metals – Full RAL Color Availability & Custom Aluminum Solutions

At BedRock Metals, we are proud to offer our entire range of aluminum profiles—featured throughout this catalogue—in every single RAL color available in our extensive selection. Whether your project requires classic architectural shades, vibrant statement tones, or specialized hues for commercial and industrial applications, our aluminum profiles can be ordered pre-finished in any RAL color that we offer. This level of customization ensures aesthetic flexibility while maintaining the high standards of durability and finish quality that BedRock Metals is known for.

Choosing to purchase pre-colored aluminum profiles from BedRock Metals provides significant benefits to fabricators and end-users alike. One of the key advantages is reduced post-fabrication manufacturing costs. By eliminating the need for painting or powder coating after production, you save time, labor, and resources—streamlining your operations and accelerating project timelines. Pre-colored profiles also reduce the risk of surface defects or inconsistencies that may occur during post-processing, ensuring a cleaner, more consistent final product.

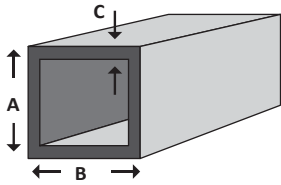

If you're interested in viewing the full RAL color catalogue we offer, we encourage you to reach out to us directly. Our team is ready to assist—simply email sales@bedrockmetals.com or contact your BedRock Metals Sales Representative for detailed information, samples, and expert guidance.

In addition to our wide range of color options, BedRock Metals also provides custom aluminum die fabrication. Whether you need a specific shape, dimension, or a completely unique profile tailored to your architectural or industrial design, our experienced engineering and tooling team can work with you to develop custom dies that match your exact specifications. For more information on our custom die services, please don't hesitate to get in touch via sales@bedrockmetals.com.

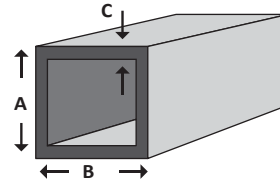

At BedRock Metals, we are committed to offering flexible, efficient, and tailored aluminum solutions that help our clients succeed. Let us help you bring your next project to life—exactly how you envision it.
